# OATS CORNER INJUNCTION

DEFENDANTS DENY THAT THEY TRIED TO "HOLD UP" SHORTS.

Court Modifies Restraining Order and Situation Loosens-Speculators' Comment.

CHICAGO, July 31 .- Judge Chytraus today modified the injunction issued yesterday restraining the Chicago Board of Trade and James A. Patten, Carrington, Patten & Co. and Bartlett, Frazier & Co. from conducting a corner in July standard oats, by restraining the defendants from asking the president of the Board of Trade to indorse down margins deposited by the complainants, Waite, Thoburn & Co., to secure 55,000 bushels of short sales. The court held a session before the opening hour of the Board of Trade in order that a decision might be arrived at before business was begun. So important, however, did the court consider the precedent of the case that a motion for a dissolution of the temporary injunction was not consid-

ther adjudication next week. The effect of the action of the court is for the time to protect the complainants against any alleged corner, and is construed as working against the bull clique down, at 55%c. of operators on the board. Argument was brought to bear by attorneys for the board and for the defendants that, inasmuch as both the complainants and the defendants were members of a tribunal that adjudicated any controversies between its members, the injunction should be dissolved on the ground of want of jurisdiction. It was argued that the complainants were premature in asking for an injunction against a corner when no such corner was | w in effect, and when the Board of Trade rules specifically prohibited corners. The defendant members of the Board of Trade in answer to the injunction, denied the affirmation that July standard oats were worth not in excess of 35 cents a bushel, and said they were worth more

ered, and the case will come up for fur-

than that price. They also denied any conspiracy among themselves or with Joseph Bidwell, grain inspector, to corner July oats or to forestall the market in that commodity or to raise the price of July oats. They denied that they had given a fictitious value to the article and that they had made any purchase for July delivery. P It was set forth that the elevator accommodations and railway facilities of Chicago were such that would allow of delivery of fifteen times the amount of oats bought of Waite, Thoburn & Co. by the defendants, and more frequently the defendants had bought ten times as much as | P their total purchases in this delivery. Following are the purchases made in July standard oats by the bull clique as set forth in their affidavit: Bartlett, Frazier & Co., 900,000 bushels; Carrington, Patten &

Co., 100,000 bushels; James A. Patten, 860,000 bushels. Attorney J. H. Monroe, for the defendants, in addressing the court, made Flaxseed-No. 1, \$1.50; No. 1 Northwestern, \$1.55. sharp allusions to the complainants having been of a speculative turn of mind and sold something they did not have and that | 10.80. Short rib sides (loose), \$10.25@10.35. Dry. they did not have the means of obtaining saited shoulders (boxed), \$9.121269.25. Short for delivery. He said it looked as if the complainants were trying to make money by buying in property at a less price than by buying in property at a less price than corn, 134,000 bu; oats, 338,000 bu; rye, 6,000 bu; that for which it had been sold. Judge barley, 5,000 bu Shipments-Flour, 13,000 bris; Chytraus, before modifying the order, told the attorneys he did not consider the injunction restrained the defendants from bidding, buying or selling or refusing to buy or sell July oats in the pit, or from any of their accustomed business operations aside from those in connection with the complainants.

There was practically no effect from the injunction in the business in the oats pit. July standard oats opened ic higher at 64c and sold at 65c early. James Patten sent and about 100,000 bushels were covered early by shorts. This tended to weaken the price and July dipped to 63%c. September oats opened a shade up at 324c, but sold at 31%@31%c before noon in sympathy with July. Speculators were inclined to comment unfavorably upon the appeal to the courts. The big bulls said if such a precedent were established there would be nothing but short selling. If prices went down deliveries would be made, but if the be nothing to prevent them defaulting on

## GRAIN MARKET SAGGING

CORN CORNER ONLY A MEMORY AND WHEAT DOWN 6 CENTS.

Injunction Against Oats Corner Operates All Around, Though It Technichally Affects Only One Deal.

CHICAGO, July 31.-July corners were stuffed out to-day. Quietly and with littie excitement save that made by the injunction against a corner in July standard oats, the manipulated deals died in the arms of their projectors. July wheat cut the most spectacular figure by slumping alner flitted by into history with the closing price 24 cents lower than the high price exacted when the Gates clique was in control. July oats, although controlled absolutely by the Patten-Frazier crowd, closed uneventfully, doubtlessly held down by the 21/263 per cent.; last loan, 21/4. Prime mer- | fear of dread possibilities at the hands of cantile paper, 4/265 per cent. Sterling ex- the court when the injunction case comes to be settled. With manipulation largely out \$4.86 and \$4.88%. Commercial bills, \$4.84%@ of the way, and the inflation in prices rapidly seeping out, other options in grains felt the very bearish effect of big shipments to market, lower cables, fine weather and days, \$4.881/2 on demand. Clearings, \$24,196,- heavy sales, and consistently declined all around. At the close, July wheat was 5%c lower, September wheat %@lc down, July corn 3c lower, September corn %c lower, July oats le up, and September oats %@1/2c lower. Provisions closed 21/2c up to 121/2c

Interest centered in oats, because of the injunction proceeding against James A. Patten, Bartlett, Frazier & Co., and Carrington, Patten & Co. Trade hung fire for a time at the start, because the case was in court. A little covering was done early, which started prices up somewhat. When \$10.30. Bulk meats steady at \$10.62%. Bacon steady at \$10.62% bacon steady at \$12. Whisky-Distillers' finished goods parties interested and stated that only one house was interested-a house short 55,000 bushels of July-and that with the exception of the deals with this house all business could go on as usual on 'Change, prices strong at 55c; No. 2, September, 324c. Clover seed—October, \$. 15. sagged. Patten sold freely in the pit to any bills (for settlement), 24 per cent.; three | who wanted the stuff at 65 cents-2 cents over yesterday. About 100,000 bushels were | Lard-Prime Western, in tierces, steady at 55s; covered early. Then rather heavy liquidation set in all around. The general feeling among speculators was that had there not been an injunction in effect protecting one firm, prices probably would have been boosted, and the July corner would have gone out with a boom. The bull interest controlled 1,862,000 bushels, bought below 40 cents. Of this long line, it is estimated over 1,250,000 bushels were disposed of by the bulls in the open pit. Most of the trading was in new, round lots, changing hands at 64 cents, one of 465,000 bushels, and another of 200,000. Fair deliveries were made as the price in oats declined, but a large number of contracts defaulted. Details of these will not be known for some time. July, after opening 1c up at 64c, sold at 65c, dipped to 63%c and closed ic up, at 64c. September sold from 32%c down to 31%c, and closed weak, %@%c lower, at 31%c. Receipts were liberal at 243 cars. A break of 6 cents in July wheat was the feature of the leading pit to-day. Trade

was dull at times and prices were inclined to be erratic. Covering and the effect of big exports of yesterday started prices higher. Deliveries of 500,000 in July, however, with heavy selling in all deferred options, brought a break. July opened 1/30 down to %c up, at 75@76c, hung fire for some time and then plunged in a panicky fashion to 69%c. Few traders wanted the July article, although there was a fair cash demand. September opened 1/2@1/4c up. crop news, big receipts and fine weather influenced a marked increase in the September-December spread, December selling 1c below September. The feeling in wheat, as elsewhere, was that with manipulation out of the way inflation must come out of prices in all options. July closed 5%c down, at 69%c. Local receipts were 349 cars, seven of contract grade; Minneapolis and Duluth reported 152 cars, making a total for the three points of 501 cars, against 353 last week and 424 a year ago. Primary receipts were 148,000 bushels, compared to 993,000 bushels last year. Seaboard clearances in wheat and flour equaled 236,000 bushels. The seaboard reported twenty-seven loads taken for export.

There was heavy selling in corn, very little support arrived and prices broke. From 90c, the price of July corn on July 8 when controlled by the bull crowd, the price had declined until to-day it closed at 56c. There was fair strength to all options early on the small receipts of eighty-two cars. Selling in September, however, was heavy, induced by bearish reports of excellent crops and good weather. In spite of only sixtyfive cars estimated for to-morrow September sold from 56%c down to 54%c and July from 59c to 56c. There was a little rally in September as early weak cables improved, but the close was weak and %c

Provisions were only fairly active and ruled generally lower on weakness in lard. Early prices were firm on a strong hog situation and support. Ribs had the best support, and September options of this product closed 2½c up, at \$10.35: September pork closed 121/2c down, at \$16.771/2, and September lard 5@71/2c lower, at \$16.821/2@10.85.
